

**Health economic aspects
of public health and disease prevention**

15-16 June 2016 (Wednesday, Thursday)

Hotel Hungaria City Center (1074 Budapest, Rákóczi út 90.)

The 10th Jubilee Advanced Training and Conference on Health Economics of IME Journal of Hungarian Interdisciplinary Medicine and META Hungarian Health Economics Association will take place on 15-16 June 2016.

The most important aim of our jubilee conference, which is the yearly convention of the study of health economics, is to let those who are interested in the topic meet and mingle, to cover methodological and professional news and to contribute to the enforcement of health economical aspects in preparing decisions as well as in monitoring the consequences of them.

The top matters of the 2016 Conference:

- The macro-economical environment of healthcare
- Healthcare systems after the crisis – before the migration...
- Health care system 'on its feet' – general practice, public health
- Cost-effectiveness, infection control, oncology, cardiology, medicine and medical devices
- Patient education and communication
